Petersburg, Va. June 11.

The Academy of Music was filled to its capacity last night to witness the closing exercises of the Petersburg High School. Professor W. R. Smithey, principal, presided and acted as master of coremonies. The program was varied and attractive, embracing music, essays, addresses, presentation of diplomas, prizes and honors, etc. The two essays read were by Frederick G. Ribble, on the subject of "The Value of Modern Science," and Harry P. Pillow, on the "Benefits of Modern Chemistry to Mankind." These young men were members of the graduating class, and their essays gave evidence of careful thought and study.

WOMEN'S FEET ALL WRONG.

Wisconsin Feminine Expert So Asserts and Will Fix Them.

La Crosse, Wis. June II.—Women's feet are all wrong, and they've got to be corrected, in the opinion of the Young Women's Christian Association of La Crosse, and Miss Amanda Clement, physical director of that institution, has started out to do the job. Miss Clement has just started a class of seventy-five young women in the foot question, and has taken diagrams of the feet of the girls with shoes on and off, and these diagrams she expects soon to place on view at a public exhibition to illustrate the ills to which the feet of the women of to-day are subject. In the seventy-five pairs of feet thus far examined Miss Clement has found none to be perfect, all having been deformed to some extent by being improperly shod.
